

Dr Eleanor Ferris

Doctorate in Clinical Psychology, EMDR therapist

Scans, tests, services & treatments available

- Psychological & Mental Health Services

Professional Profile

Dr Ferris is not accepting any new private therapy patients at this time

I provide therapy to clients who experience difficulties such as low mood/depression, worrying/anxiety, stress, including work related stress, phobias, panic, post-traumatic stress disorder, low self-esteem, anger, sleep difficulties, bereavement and loss, driving anxiety.

As a Clinical Psychologist, I am able to use a variety of therapy approaches including Psychodynamic Psychotherapy, Cognitive Behaviour Therapy and EMDR. My aim is to work with my clients to increase their emotional wellbeing and help them feel better, and stay better, for longer.

Dr Ferris supports the Cosmetic Service at KIMS Hospital by conducting Holistic Assessments on all patients who are undergoing Cosmetic Procedures. The appointment offers an opportunity to explore your expectations and motivation for surgery, as well as talk through the emotional and/or social reasons for surgery and discuss the post-operative adjustment process including work, family and future well-being in a non-judgmental space.
