Professional Profile

Dr Nunn studied Medicine at Cambridge University and then St Bartholomew's and Royal London Hospital Medical School, qualifying in 1999. After working in general medicine at Whipps Cross Hospital for three years he became a lecturer in medical education at St George's hospital, completing a postgraduate certificate in education whilst continuing clinical practice.

Dr Nunn trained in Cardiology at the Heart Hospital, University College London and undertook higher specialist training in electrophysiology and inherited cardiac conditions.

In 2012 Dr Nunn became a Consultant Cardiologist at Maidstone Hospital, setting up an electrophysiology service and also practises at St Thomas' Hospital, London.
