

# Dr Siva Sivappriyan

MBBS (Hons) FRCP (UK), (Diabetes & Endocrinology)

## Scans, tests, services & treatments available

- Endocrinology & diabetes
- Weight Loss & Bariatric Surgery

## NHS Practices

Maidstone Hospital, Maidstone & Tunbridge Wells Hospitals NHS Trust

## Professional Profile

Dr Sivappriyan is a leading Consultant Physician in Diabetes and Endocrinology and Honorary Senior Lecturer at Kings College London. After qualifying undergraduate degree with Honours, he completed his junior doctor's rotation in Sheffield, Edinburgh, and his specialist registrar training in London at Royal Free & University College London hospitals.

He has been working as a substantive consultant at Maidstone and Tunbridge wells hospital since 2014. He provides specialist care on all aspects of endocrinology and diabetes.

He has been a college tutor for the Royal College of physicians and training the future generation of doctors.

He is also the departmental lead for the diabetes and endocrinology department. He is also the lead Physician at Maidstone hospital.

He aims to provide patient-centred care and ensure the patients get a comprehensive review of the other medical issues while getting treated for diabetes or endocrine problems. He has received extensive positive feedback from patients about the care he has provided.

As a diabetes specialist, he provides treatment to improve cardiovascular outcomes (prevent stroke /heart attack/kidney failure) and help with weight. He also offers the latest technology available in diabetes.

He helps the patients to get the right hormone balance and can provide specialist advice on all hormone-related problems.

He has also published in National and international journals and well-known expert speaker nationally and internationally.
