NHS Practices

Maidstone and Tunbridge Wells NHS Trust

Professional Profile

Mr El Gohari is an expert in endometriosis and pelvic pain, with special interests in advanced laparoscopic surgery and minimal access surgery. He is the lead of The Endometriosis Centre at Maidstone and Tunbridge Wells NHS Trust and former Lead of the Endometriosis Service at East Kent Hospitals University NHS Foundation Trust.

He completed the advanced laparoscopic training for excision of benign disease at St Peter's Hospital in Surrey, which is one of the largest endometriosis centres in the UK. Mr El Gohari is also a specialist in hysteroscopy and hysteroscopic procedures, such as, resection of uterine fibroids and polyps, as well as management of general gynaecological problems like menstrual disorders (menorrhagia, dysmenorrhea), ovarian cysts, uterine fibroids and polycystic ovary syndrome and tubal surgery.

He has publications in national and international journals and regularly contributes to national and international meetings, as well as lecturing on various aspects of gynaecological care and treatment to general practitioners.
