

Mr Ahmed Hamouda

MBBCh MS MD FRCS (Gen Surg)

NHS Practices

Maidstone and Tunbridge Wells NHS Trust, Kent

Professional Profile

Mr Ahmed Hamouda qualified as a medical doctor in 1992, graduating from Ain Shams Medical School, Cairo, Egypt. He undertook a residency program in general surgery and appointed to university lectureship post due to outstanding academic achievements.

Mr Hamouda successfully applied for post-doctoral sub-speciality training in open competition and awarded a grant to pursue this. He completed a full SpR training rotation in South West Thames London Deanery. He has been awarded a laparoscopic biliary fellowship in Glasgow for a year which involved advanced laparoscopic interventions including complex laparoscopic cholecystectomies and bile duct explorations.

Following the award of Certificate of Completion of Specialist Training, Mr Hamouda successfully interviewed for a six month advanced bariatric fellowship in a Centre of Bariatric Excellence offering laparoscopic bands, sleeve gastrectomy and gastric bypass.

Special Interests

Laparoscopic Upper GI, Bariatric surgery, Reflux disease, Gall stones, Complex hernias
