- Orthopaedic surgery
- Hand & wrist surgery

NHS Practices

Maidstone & Tunbridge Wells NHS Trust

Professional Profile

Mr Marcos Katchburian is an orthopaedic surgeon specialising in hand surgery. He is a member of the British Society for Surgery of the Hand.

His hand practice includes treating sports injuries, hand and wrist fractures, and hand conditions such as carpal tunnel syndrome and other nerve compression problems, Dupuytren's contracture of the hand, trigger digits, wrist and finger arthritis, wrist arthroscopy and joint fusion and replacement in the hand.

He works with a dedicated team of specialist hand therapists who treat hand conditions non-surgically and provide therapy after surgical procedures. He has developed an early CT model for diagnosis of scaphoid fractures.

He obtained his basic medical qualification at the London Hospital in 1987. His general orthopaedic training took place in both Brazil and the UK. In Brazil he completed a full residency program and subsequently returned to the UK where he spent a further 6 years on the South East Thames orthopaedic training circuit. Following his general orthopaedic training he sub-specialised in Hand Surgery at Queen Victoria Hospital in East Grinstead and in Paediatric Orthopaedics at Great Ormond St Hospital and the Hospital de la Timone, Enfants in Marseille. He maintains links with these internationally renowned centres.

Mr Marcos Katchburian has been a Consultant in Trauma and Orthopaedics at Maidstone and Tunbridge Wells NHS Trust since 2002.
