

# Mr Paul Jairaj

MB ChB, FRCS (Eng) FRCS (Tr&Orth)

## Professional Profile

Mr Paul Jairaj is a British and Internationally trained Orthopaedic Surgeon with fifteen years' consultant experience in hip and knee surgery.

Paul's views on how the best healthcare can be provided in the UK involve thorough history taking, examination, utilisation of the latest diagnostic imaging techniques to achieve the precise diagnosis, providing the correct management for the patient's individual needs. This may include the latest surgical technologies not available in standard healthcare.

Shared decision making discussing the pros and cons of multiple treatment options in a multi-disciplinary approach is one of Paul's core practices.
