NHS Practices

Maidstone and Tunbridge Wells NHS Trust

Professional Profile

My practice involves the full scope of hand and wrist surgery with specialist interests in nerve conditions, arthritis and traumatic injuries. I use the latest techniques in hand surgery to enable early return to work or sport. I perform rapid recovery Dupuytren's contracture correction. For fractures that require fixing I use a techniques that allows patients to move their hand or wrist immediately after the procedure.

I pride myself on being patient-centered and ensure your needs, as an individual, are at the heart of your treatment plan. I working closely with highly skilled hand therapists, optimising your recovery and outcomes.
