

Mr Sandeep Bahia

BSc, MBBS, FRCS, PhD

Scans, tests, services & treatments available

- Varicose veins treatment
- Vascular surgery

Professional Profile

Mr Bahia is a Vascular and Endovascular Surgeon. Originally from Kent, he qualified from UCL and went on to train in units in London and the South East. He has been awarded a PhD (St George's) exploring cardiovascular risk and is the Aortic and Research Lead for East Kent Vascular Services. He has published over 25 peer-reviewed papers in the field and presented his work nationally and internationally. He is the Clinical Director for AAA screening in Kent and Medway.

Mr Bahia offers consultations and treatments for aortic, carotid and lower limb disease, with a particular interest in the minimally invasive treatment of venous disease.

Special Interests

Minimally invasive treatment of venous disease
