Professional Profile

Mr Attard-Montalto completed his undergraduate medical studies in 1993 from Malta. He completed his specialist training in Obstetrics and Gynaecology in the UK, coming here in the year 2000. He obtained this training via the South East London and Kent rotation. He has attained sub-speciality training in Gynae-oncology surgery and is an accredited colposcopist.

He has a special interest in Gynae-oncology surgery as well as minimal access surgery and completed his MD thesis from the University of London on the subject of immunology within the field of ovarian tumours. He is the RCOG ATSM preceptor for vulval disease in the South East, with an interest in vulval disorders.

Special Interests

Gynae-oncology surgery, Minimal access surgery
