

Professor Ali Ghoz

2011 FRCS (Tr. & Orth.) 2013 MSc Musculoskeletal Sciences, Oxford University 2

Scans, tests, services & treatments available

- Hip replacement surgery
- Knee arthroscopy
- Knee replacement surgery

Professional Profile

Professor Ali Ghoz is a Consultant in Trauma and Orthopaedic Surgery, with a special focus on hip and knee operations. After completing basic surgical training at the Yorkshire School of Surgery and obtaining his FRCS in 2011, he earned an MSc in Musculoskeletal Sciences from Oxford University. He is highly skilled in primary and revision hip and knee surgeries, including advanced techniques such as muscle-sparing anterior hip replacement, hip resurfacing, and robotic surgery. Professor Ghoz has completed prestigious fellowships in the UK and Australia and teaches internationally, including at Oxford. He currently chairs the MDT at The Cromwell Hospital and serves as Medical Director for Visit Health, a leading healthcare clinic.
